

CERTIFICATE OF CLEANING WATER STORAGE TANKS

This is certified that the cleaning of water storage (PVC/RCC) tanks at **"Innocent Hearts School, Kapurthala Road Jal."** has been done as on **17-06-2026**. In this cleaning sludge, Calcinations, algae etc. are removed from the walls, top and bottom of the tanks with latest technology machines. Anti-bacterial Spray.

The walls & ceilings are made totally sterile from bacteria attack using specially developed antibacterial agents.

A specially developed UV Radiator is used to kill suspended or floating bacteria remaining in the tank.

We recommend next Water Tank cleaning after 6 months.
